

Dataset	Completed runs	Matched cells	Linear (%)	Poly. (d=3, %)	STC (%)	Robust (%)	Robust – mean (Linear, Poly., STC) (pp)	Robust ranked last
Widar	320/320	80	69.97	69.37	69.59	59.48	-10.16	80/80
Gait	317/320	77	92.83	90.76	92.90	46.38	-45.78	77/77

Means are computed only over cells containing all four calibration methods; each cell fixes denoising, outlier handling, normalization, and interpolation. Widar is complete. Gait currently contains 317/320 successful MLP runs; 3 incomplete combinations are excluded by matched-cell analysis.
